Check Point

That is CORRECT, Great Job !!!

Check Point

Sorry, but you are incorrect.

Negative Specimen Results

- Negative results from the following test basis codes are required to be reported back to the commander:
  - Probable Cause (PO)
  - Competence/Fitness for Duty/Command Direct (CO)
  - Rehabilitation (RO)

Note: RO specimens will also be reported to the counseling center.

Types of Discrepancies

- **Fatal discrepancy** (specimen will not be tested and is destroyed) – a discrepancy is noted that would ultimately invalidate the test results, Examples: Insufficient specimen, SSN on the specimen and DD Form 2624 do not match, etc.
- **Non-Fatal discrepancy** (specimen is still tested) - a discrepancy is noted that would not invalidate the test results, but should have been corrected by the UPL or IBTC, and may discredit the UPL and/or IBTC in a courts martial. Examples: Invalid test basis code, corrections to DD Form 2624 or label not IAW AR 600-85, etc.
